

PROFESSIONAL SUMMARY

Result-driven Software Engineer specializing in building scalable web ecosystems. Expert across JavaScript/TypeScript frameworks including Node.js (Express, Nest.js) and frontends (React, Next.js, Vite.js). Proven track record of architecting secure backend APIs, managing high-fidelity validation layers, and crafting responsive user dashboards.

TECHNICAL SKILLS

- Frameworks: Nest.js, Next.js, React, Express.js, Node.js
- Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3, SQL
- Tools & DBs: Vite.js, Git, GitHub, MongoDB, RESTful APIs, Tailwind CSS

PROFESSIONAL WORK EXPERIENCE

Full-Stack Developer | TaxFilerz & Co.

05/2025 – 01/2026
Karachi, Pakistan

- Deployed the company's platform using React and Node.js ecosystems, boosting user lead conversion rates by 30%.
- Architected backend APIs to map corporate financial datasets, decreasing manual client reporting overhead by 40%.
- Enforced strict backend validation layers, driving a 25% drop in structural data mismatch support tickets.
- Built responsive interfaces optimized for real-time operations, enhancing client filtering efficiency by 35%.

Next.js Frontend Developer | Freelance & Contract

2024 – Present
Remote

- Engineering high-fidelity web solutions and optimized digital storefronts mapping to clean architecture.
- Leveraging server-side rendering (SSR), rapid Next.js routing, and optimized dynamic asset pipelines.

KEY PROJECTS

TutorWala | Lead Developer

Personal Project
tutor-wala.vercel.app

- Engineered an interactive online educational marketplace connecting students with localized tutors seamlessly.
- Integrated dynamic searching, profile filtering, and real-time dashboard scheduling components for optimal usability.

Apna Ghar Apni Zameen | Full-Stack Developer

Open Source
github.com/./Apna-Ghar-Apni-Zameen

- Architected a comprehensive real estate platform enabling seamless property listings, discovery, and client communications.
- Implemented structured database schemas and robust API verification methods to guarantee secure financial asset transactions.

BrandSocia | Lead Full-Stack Developer

07/2025
brandsocia.vercel.app

- Designed and deployed a responsive application targeting optimized online commercial footprint development using React.
- Wired custom backend APIs using Vite.js and React for blazing-fast page loads and pixel-perfect layouts.

Rent a Car System & Mini-Hackathons

01/2024 – 10/2024
Saylani Mass IT Training

- Collaborated using the MERN stack to prototype and build a scalable full-stack Car Rental application mapping custom pipelines.

EDUCATION

- BS in Artificial Intelligence

Dawood University of Eng. & Tech.

10/2023 – Present | Karachi
- Intermediate (Pre-Engineering)

Govt. Delhi Inter. Science College

10/2021 – 06/2023 | Karachi

LANGUAGES

Urdu (Native) • English (Professional)

CERTIFICATIONS

- Web & Mobile App Development — Saylani Mass IT
- Data Analytics Simulation — Deloitte Australia
- Data Analysis With Python — Coursera
- Responsive Web Design — freeCodeCamp
